

# Power Amplifiers

All Exposure power amplifiers incorporate custom-made transformers and have large regulated power supplies. The output devices and audio regulation are manufactured specially to our own design and feature a special internal bonding technique which improves their linearity and heat dissipation. XLR inputs are provided to offer improved performance.

model shown: Super 18

## Features

- ❖ Large Regulated Power Supplies
- ❖ Bi Wire Speaker Outputs
- ❖ 4mm Gold Plated Speaker Sockets
- ❖ Toroidal Transformer
- ❖ Custom made regulation and output devices
- ❖ Phono and XLR Input Connectors
- ❖ Thermal Protection to prevent overheating
- ❖ Aluminium Case and Front Panel

## Specifications

### Super 18 Stereo

Frequency Response	20Hz-20kHz +/- 0.5dB
Input sensitivity/impedance	1.2V, 100kΩ
Input Connections	2 x Phono, 2 x XLR
Outputs	1 Pair Loudspeakers 4-16Ω Bi-Wire Sockets Included
Continuous Power Output	2 x 75W into 8Ω
Power Supply	250VA
Dimensions	440 x 90 x 306 (mm)
Weight	9.0kg boxed

### Dual 16 Phase Regulated Mono (each)

Frequency Response	20Hz-20kHz +/- 0.5dB
Input sensitivity/impedance	1.2V, 100kΩ
Input Connections	1 x Phono, 1x XLR
Outputs	1 Loudspeaker 2-16Ω Bi-Wire Sockets Included
Continuous Power Output	1 x 120W into 8Ω
Power Supply	1000VA
Dimensions	480 x 135 x 306 (mm)
Weight	30kg boxed
