

Exposure 5010 pre/monos

SHARING THE SAME chassis design as its 3010 range, Exposure's flagship 5010 series monoblocks lay claim to 200W apiece, while the preamplifier offers six line inputs and the option of modular MM and MC phono and DAC boards. This dynamic duo delivers a three-dimensional performance with a highly revealing sound that makes even the most demanding material sound sweet. If it's a tantalising mix of power and grip with intimacy and focus that you're after, look no further.
